

Noise suppression USB2.0 A-B cable

NSC- USB01 series

Built in ferrite compound for noise suppression.

While its appearance is the same as a usual cable, it significantly reduces internal and external noises.

This is a cable which connects each company PC to a peripheral equipment having a USB connector such as HDD, digital camera, DVD, CD-R, USB hub, USB printer, USB scanner and USB modem.

Compared with normal cables, high-speed communication can be still possible under the environment where it is vulnerable to receive noises.

Feature

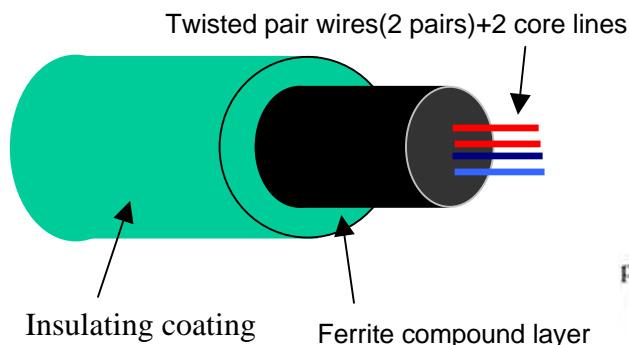

- Support peak transfers up to 480Mbps
- Significantly reduces internal and external noises
- Diameter and flexibility of cables are the same as our conventional products.

Basic specification

- USB A type male to mini B type male
- Cable color : white

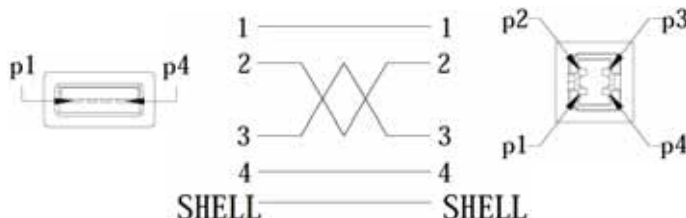

Inner structure of cable

Application

- DOS/V & its compatible
- Apple iMac
- G4

Connection specification

EMI generation (cable length 3m)
