Announcement of Transfer of Power Supply business of Fujitsu Telecom Networks Limited
to FDK CORPORATION

FDK CORPORATION (“FDK”) hereby announce that FDK and FUJITSU TELECOM NETWORKS LIMITED (“FTN”) reached the Agreement regarding transfer of FTN’s Power Supply Business to FDK.

- Background -

The spread of Digital home appliances such as digital television, the progress of cloud computing and the increase in data traffic through increased use of mobile computing such as smartphone and tablet PC and so on bring us the demand of applications such as power supply equipment and power storage systems for information and communication more and more.

Under such business environment, FDK is providing continuously with superior products with high efficiency and being miniaturized for ICT device and equipment like server, storage and networking. FTN, on the other hand, is doing Power-Supply business in a wide range of applications from low-voltage power supply of the CPU to high-voltage power supply for equipment and systems. In addition, FDK and FTN has been promoting the collaboration in the field of power storage systems and power supply for communication infrastructure with each strengths with regard to technology of power-supply and its related technology.

FDK concluded it is the best way that both business resource such as technology, know-how, and experience and so on are fused and managed as one in order for both of us to enhance our competitiveness in the market by strengthening our existing business marketing new products with advanced technology, reducing costs thoroughly, and responding to market needs speedy for the power storage system of which the applications are spreading in the various field.

FDK will turn customer’s request into reality by developing new Energy Solution business as “Leader in Energy Management Systems across Multiple Platforms”.
